+63 994 500 5100 | givano550@gmail.com | Lipa City, Batangas

EDUCATION

Batangas State University - Lipa Campus — Maraouy, Lipa City, Batangas
BS in Information Technology Major in Business Analytics

PROJECTS

December 2026

Front-end and Back-end Developer

BSU-Trace | React, Python, Vercel, Render, Neon

- Real-Time WebSockets Integration: Implemented WebSocket architecture across the entire system, enabling low-latency, real-time sync for both the core platform and the companion mobile scanner.
- UI/UX Enhancement: Refined the overall system interface and user experience to improve visual design, responsiveness, and usability.
- Backend Best Practices: Refactored the backend architecture to follow industry standards, enhancing performance, security, and maintainability.

December 2025

Main Developer

BREADLY | php, HTML, Tailwind CSS, JavaScript

- End-to-End System Deployment: Engineered and deployed a complete POS and Inventory Management System hosted on Hostinger, ensuring high availability and reliable data storage.
- Core POS & Inventory Workflows: Built dynamic point-of-sale and stock management workflows, enabling real-time product tracking, automated inventory updates, and efficient transaction processing.
- Modern Interface & Dynamic Scripting: Developed client-side workflows and responsive Tailwind CSS interfaces powered by vanilla JavaScript for seamless user interactions and fast rendering.

May 2025

Backend Developer

Healthcare Data Management | php, HTML, CSS, JavaScript, PostgreSQL

- Developed a web-based Healthcare Data Management System for Remote Communities that manages patient records and nurses' and doctors' information.
- Implemented core tracking features to manage and view insights in the dashboard for better decision making and proper management of the community's healthcare

December 2024

Co-Developer

CLAVEM | php, CSS, HTML, PostgreSQL

- Co-developed a comprehensive real-estate platform styled, facilitating the digital browsing and managing of available real estate properties.
- Implemented core real-estate management functionalities, including property listings, digital inquiry and scheduling for site visit and ocular inspections.

SEMINARS

- **BATANGAS INFORMATION TECHNOLOGY CONFERENCE |NOV 2023**
- **BATANGAS INFORMATION TECHNOLOGY CONFERENCE |APRIL 2024**
- **BATANGAS INFORMATION TECHNOLOGY CONFERENCE |APRIL 2025**
- **DATABIZ CONFERENCE | OCT 2025**
- **BATANGAS INFORMATION TECHNOLOGY CONFERENCE | MARCH 2026.**

SKILLS AND INTERESTS

- Back-End Development
- System Architecture Design
- REST API Development
- UI/UX Prototyping
- Github Version Control
- Business Analytics
- Predictive Modeling
- Database Management
- Data Visualization & Reporting
- Problem Solving
- Problem Solving
- Requirements Gathering
- Hardware Repair (Phones and Laptops)
- Driving
- Music
- Gaming
- Reading
- Technology
